

**Four babies are born
every second.**

Four babies are born every second.

Every second, we welcome four new babies into our overall population. Do a little math and you'll find out that means there are approximately 250 births each minute, 15,000 each hour, and 360,000 each day. In a full year, there are around 131.4 million babies born on Earth, according to the Ecology Global Network.

จากข้อมูลทางสถิติของเครือข่ายนิเวศวิทยาโลก (The Ecology Global Network) จะมีเด็กทารกลืมตาขึ้นมาทั่วโลก 4 คนในทุก ๆ 1 วินาที หากคุณลองคิดคำนวณดู นั่นหมายความว่า จะมีเด็กทารกเกิดใหม่ราว 250 คนต่อนาที 15,000 คนต่อชั่วโมง หรือ 360,000 คน ต่อวัน ซึ่งตลอดทั้งปีจะมีเด็กทารกเกิดใหม่บนโลกใบนี้ประมาณ 131.4 ล้านคน

Vocabularies

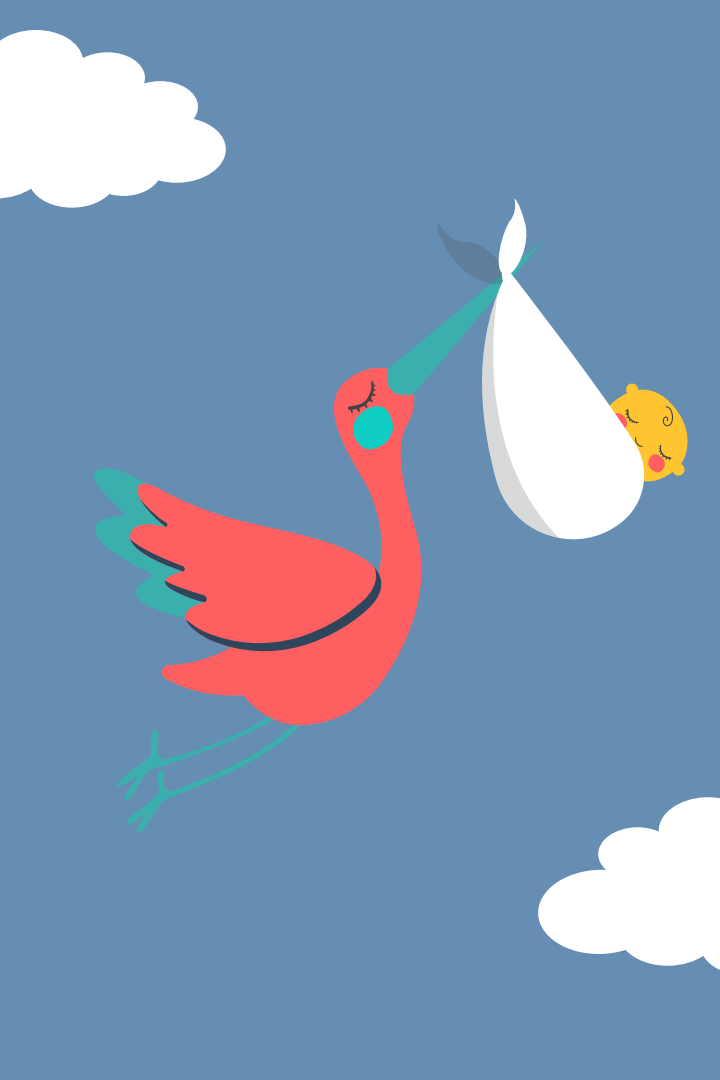

Second (n.) = วินาที

Meaning: A short unit of time that is equal to a 60th of a minute

Example: There are 60 *seconds* in a minute.

Population (n.) = ประชากร
